Whether you know the answer to this or not, the details below will help you to understand the requirements and procedures of both types

Should you wish to choose a religious ceremony, there are several churches located in Selkirk and the surrounding towns or villages. If you live outside of the parish, then there may be certain criteria that you may need to meet prior to accepting to conduct the ceremony.

Wedding Etiquette

The Seating Plan

Consideration will be necessary as to whether you wish to have a traditional straight or more informal round Top Table; both have advantages and disadvantages.

The round Top Table will assist those who prefer a little less formality, or people who have family structures that do not conform to the traditional table layout.

The Receiving Line

Traditionally, the Bride and Groom and both sets of parents greet the remaining friends and family as they enter the room for the Wedding Breakfast. This gives an opportunity for the Bride and Groom to speak to all their guests at least once during the day. This formality is once again optional; you should consider the time it takes within the schedule of your day.

The Cutting of the Wedding Cake

Traditionally the Bride and Groom cut their cake during the wedding breakfast. A good time to do this is after the main course has been cleared and before the dessert is served. This allows for a natural break during the meal. The Master of Ceremonies will announce that the Bride and Groom wish to cut their cake and invite any photographers to come forward. The cake can then be served with coffee or can be served at the evening reception.

Speeches

These would normally take place at the end of the meal however some do prefer to make their speeches before the wedding breakfast - it is your choice. There are traditionally three wedding speeches conducted in the following order:

Father of the Bride

Says a few words about the Bride, welcomes the Groom into the family. Concludes with a toast to the Bride and Groom.

Grooms Speech

Replies on behalf of his wife and himself, thanking all the guests for attending and for the presents and cards received. Thanks for those who have travelled far. Special thanks go to the Parents, Bridesmaids, Ushers and Best Man for their contributions to the day. Gifts may be given out at this point. Concludes with a toast to the Bridesmaids and Best Man.

Best Man Speech

Responds on behalf of the Bridesmaids and himself for being part of their special day and the gifts they have received. He may then talk about the Bride and Grooms younger years. Before closing he may read out some cards.

Wedding Favours

The wedding favour custom originates from Italy. Wedding favors, traditionally called 'Bomboniere' were made from 5 sugar-coated almonds gathered together in different 'tulle' or 'nets'. The almonds signified health, wealth, happiness, long life and fertility and were given by the Bride to all her female guests. The favour would be placed on guests tables and kept as a keepsake of the Wedding Day. Today the favour can take many forms including a little gift, sweet or symbol pertinent to the Bride and Groom.

Wedding Guest Book

The guest book allows all guests to write a message on the day and provides the Bride and Groom with life long memories of their day through the thoughts of their guests.

Order of the Day

The order of the day is more commonly used for civil ceremonies here at Philipburn Country House Hotel. A typical wedding outline can be as follows:
